

PRATHAM RAJ

Phone: +91-7808519486 prathamraj2411@gmail.com linkedin.com/in/prathamraj2411

Summary

Software engineering fresher with a strong foundation in **Data Structures and Algorithms, C++, JavaScript, HTML, and CSS**. Skilled at solving algorithmic problems and building web applications that demonstrate core programming concepts. Seeking opportunities to contribute to impactful software projects and grow in fast-paced development teams.

Skills

Languages: C++, Java, JavaScript

Web Technologies: HTML, CSS, JavaScript, DOM Manipulation, REST APIs

MERN Stack: React.js, Node.js, Express.js, MongoDB

Core CS Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving

Tools: Git, GitHub, Visual Studio Code

Soft Skills: Clear communication, Teamwork, Time management

Experience

Web Development & C++ Projects

January 2024 – Present

Self-Initiated Learning

Technologies Used: C++, HTML, CSS, JavaScript

- **Developed multiple frontend web applications** using HTML, CSS, and JavaScript, focusing on interactive UI and robust functionality. [GitHub]
- Built JavaScript projects that integrate public APIs to fetch and display dynamic content, strengthening DOM manipulation and asynchronous programming skills.
- **Solved 1000+ algorithmic problems in C++**, applying core data structures and algorithms such as arrays, trees, graphs, and dynamic programming. [GitHub]
- Practiced writing clean, efficient C++ code and using version control with Git and GitHub.

Projects

Chess Web Application | *JavaScript, WebSockets, HTML, CSS* | GitHub

March 2025 – April 2025

- **Developed a real-time chess web application** that enables users to play interactive chess matches using standard game rules and logic.
- Implemented game state management and move validation to handle piece movement, turn logic, and legal move enforcement.
- Designed a responsive user interface to display the chessboard, pieces, and game status in a clear format.
- Enabled instant game updates to provide smooth gameplay and real-time feedback during matches.

Project Handler Website | *HTML, CSS, JavaScript* | Live | GitHub

February 2025 – March 2025

- Created a centralized project showcase website to manage and display multiple mini-projects from a single platform.
- Structured project data in a separate JavaScript file to enable easy addition and scaling of projects without changing core logic.
- Implemented dynamic DOM rendering to generate project cards with live and GitHub links.

Awards & Certifications

- **Knight Badge on LeetCode (2024):** Solved 1000+ algorithmic problems in C++, demonstrating strong proficiency in data structures and algorithms.
- **Winner — Hackslash:** Winner of the college hackathon "Hackslash".
- **Top 30 Coders at Institute on Codolio (2025):** Ranked among the top 30 competitive programmers at the institute based on platform performance.

Education

B.Tech in Electrical Engineering

Expected Graduation: 2027

National Institute of Technology (NIT) Patna

CGPA: 7.53 / 10
